

DOBLI® BLIND SPOT MIRROR FOR VANS

WWW.GROOTJEBBINK.DE

FOR YOU, AND OTHER ROADUSERS

The blind spot. The unseen and feared angle is often missed by drivers. Especially in vans the overview is limited. Often windows are covered or even removed. To be safe on the road, it's good to make the unseen spot visible. Not only safe for you, but also for other roadusers.

To overcome these problems, GrootJebbink has different solutions, like special DOBLI®- blind spot mirrors for Vans. This mirror shows the angles in which most accidents occur.

For every type of Van a DOBLI®-mirror is available. Besides GrootJebbink includes a clear mounting instruction. This enables you to install the mirrors single handed.

- Increases safety and viewing angle
- Easy to mount
- Low-priced and efficient solution
- Strong construction
